

Wedding photography – details of packages and prices for 2010

Our aim is to produce unobtrusive, natural and informal photography led by your requirements. During the pre-wedding consultation we will go through your exact requirements and discuss the style and type of shots you would like on the day.

Your wedding or traditional ceremony will be covered by two photographers both using Canon professional cameras and lenses. By using two photographers we are able to catch the reportage and informal shots that are part of the modern style whilst still covering the more traditional aspect. Unlike many wedding photographers we will provide you with all the days photos as high-resolution image files, on average 250 to 400 including full permission for usage.
