

Wedding photography – details of packages and prices

Our aim is to produce unobtrusive, natural and informal photography led by your requirements.

During the pre-wedding consultation we will go through your exact requirements and discuss the style and type of shots you would like on the day.

Unlike many wedding photographers we will provide you with all the day's photos as high-resolution image files, on average 250 to 400 including full permission for usage. We will supply the images as full-colour and include a duplicate set as black and white.

Below are listed the packages we provide

Package 1 – Traditional marriage ceremony and reception - £560

Arrivals at the church and throughout the service, signing the register, group formals, one to one with bride and groom and a mock cutting of the cake finishing with the first dance.

The days photographs will be edited and supplied on a DVD in a high quality Italian presentation case.

This package is perfect for those that want the freedom to create their own album or print high quality images at their leisure whilst having full usage rights.
